

MIGUEL DE LA LAMA

Austin, TX | 310-867-9391 | delalama.miguel@gmail.com | [linkedin.com/in/migueldelalama](https://www.linkedin.com/in/migueldelalama)

Executive Summary:

AI Program and Product Delivery Leader with 10+ years of experience orchestrating enterprise-scale digital, personalization, and AI-enabled solutions across Product, Engineering, Design, Analytics, Data Science, Legal, Marketing, and business operations. Proven track record driving complex initiatives from concept through pilot, production rollout, adoption, and measurable business impact across high-traffic platforms serving 30M+ monthly users.

Strong technical fluency across AI and ML-enabled products, data platforms, experimentation pipelines, behavioral telemetry, personalization models, and third-party integrations. Experienced translating business needs, operational workflows, and technical trade-offs into clear product roadmaps, requirements, and priorities in partnership with Engineering, Data Science, Analytics, Legal, and Privacy. Known for aligning matrixed teams, surfacing dependencies early, and delivering measurable improvements in engagement, efficiency, revenue, and customer experience.

Core Strengths:

AI/ML Product Strategy | Platform Product Management | Product Roadmaps & Requirements | Technical-Business Translation | Experimentation & Success Metrics | Multilingual Digital Experiences | Platform Integrations & Governance | Cross-Functional Leadership

Professional Experience:

Senior Product Manager, Platform & Personalization — **AT&T**

Austin, TX | 2021 – Present

- Shape strategy, roadmaps, requirements, and prioritization in partnership with Product, Engineering, Data Science, and business stakeholders for AI- and ML-enabled personalization, experimentation, content, and multilingual experiences across AT&T digital surfaces serving 30M+ monthly users.
- Translate business and technical needs into clear product requirements, success metrics, priorities, and delivery plans in partnership with Engineering, Data Science, Design, Analytics, Marketing, Legal, and Privacy.
- Led the modernization of audience segmentation from manual rules to ML-driven psychographic models, increasing CTR 8%, engagement 12%, and reducing audience build time 25%.
- Identified the opportunity, secured investment, and led the end-to-end development of Fluently, a translation-as-a-service platform supporting att.com/es-us. Coordinated 30+ cross-functional contributors across Product, Engineering, Marketing, QA, and Operations, reducing turnaround time 99%, lowering defects approximately 50%, and generating \$8M+ in annual OPEX savings.
- Conceived and led the development of Atlas, a GenAI tool that creates psychographic copy variations at scale, improving team productivity 17%, customer engagement 25%, and revenue 15% across prepaid and accessories experiences.
- Partner with Engineering and Data Science to build behavioral telemetry, audience decisioning, experimentation, and model retraining capabilities that improve targeting, measurement, and product learning velocity.
- Define and track success metrics across engagement, conversion, productivity, cycle time, and experimentation outcomes to guide product iteration and roadmap priorities.

- Collaborate with Legal, Privacy, Analytics, and governance teams to define requirements for responsible customer data use, experimentation, access controls, and platform integrations in a regulated enterprise environment.
- Lead cross-functional collaboration across Product, Engineering, Design, Data Science, Analytics, Marketing, QA, and Operations, aligning teams on roadmap priorities, dependencies, and measurable business outcomes.

**Product Manager, Digital Strategy — AT&T
Los Angeles, CA | 2020 – 2021**

- Co-authored a five-year roadmap for a digital wallet platform supporting hundreds of millions of annual transactions, aligning SVP, Finance, and Product leadership on phased investment and risk-aware rollout.
- Conducted TAM and opportunity modeling across 750M+ payment transactions, informing prioritization of core data and platform capabilities.
- Led early-stage experimentation and data-driven pilots balancing customer value, operational feasibility, and governance constraints.

**Associate Director, Digital Innovation (Product) — Saatchi & Saatchi / Conill
Los Angeles, CA | 2019 – 2020**

- Built and led cross-functional product and engineering teams (up to 10 direct contributors), delivering predictive systems and AI-enabled tools that reduced operational effort 60–70%.
- Owned vendor-integrated data solutions leveraging NLP, computer vision, and predictive analytics to accelerate insight generation and improve forecast accuracy.
- Productized data-driven innovation offerings generating 30–45% YoY revenue growth across Fortune 500 clients.

**Digital Innovation Manager (Product) — Saatchi & Saatchi / Conill
Los Angeles, CA | 2017 – 2019**

- Drove product performance optimization through analytics-driven process redesign and agile sprint restructuring, delivering ~50% cost reduction and significantly faster delivery across multiple initiatives.
- Managed and mentored a 10-member product and engineering team, increasing throughput while developing junior PMs into senior contributors and strengthening execution accountability.
- Led delivery of the first web-based AR vehicle configurator in the automotive industry, increasing customer engagement 60% and securing incremental client investment.

**Earlier Experience — Saatchi & Saatchi / Conill
Los Angeles, CA | 2012 – 2017**

- Advanced through digital production and early product roles, leading multi-platform launches, delivery coordination, and experimentation pilots that became repeatable innovation practices.

Education & Certifications:

- BBA, Marketing, University of Texas at El Paso
- Post-Graduate Program in Artificial Intelligence & Machine Learning, UT Austin McCombs School of Business (2024)
- Product Strategy, Northwestern Kellogg School of Management (2021)
- Artificial Intelligence: Implications for Business Strategy, MIT Sloan & MIT CSAIL (2018)
- UX Research & Strategy, UCLA Extension (2013)
