

MIGUEL DE LA LAMA

AI & PLATFORM PRODUCT LEADER

Austin, TX | 310-867-9391 | delalama.miguel@gmail.com | linkedin.com/in/migueldelalama

Portfolio: migueldelalama.com

EXECUTIVE PROFILE

Senior individual-contributor product leader with 10+ years of experience, including 7+ years owning product strategy in ambiguous and emerging spaces. Builds 0-to-1 GenAI, AI/ML, NLP-enabled, and enterprise workflow products from long-range vision through phased delivery, evaluation, adoption, and scale.

Trusted to translate complex user, operational, and technical needs into roadmaps, architecture-aligned requirements, shared KPIs, and investment decisions. Proven record influencing senior leaders, aligning 30+ cross-functional contributors, partnering with vendors and Fortune 500 clients, and delivering measurable outcomes across platforms serving 30M+ monthly users.

CORE EXPERTISE

AI-Driven Product Strategy | Long-Range Vision & Roadmaps | GenAI, LLM & NLP Products | Intelligent Orchestration & Decisioning | Product Analytics & Shared KPIs | AI Model Evaluation | Enterprise Platforms & Architecture | Market, TAM & Financial Modeling | Executive Influence | Vendor & Client Engagement | Responsible AI & Governance | Mentoring & Team Leadership

PROFESSIONAL EXPERIENCE

Senior Product Manager, Platform & Personalization | AT&T

Austin, TX | 2021 - Present

- Led product strategy, multi-year roadmaps, requirements, and prioritization for a portfolio of AI/ML-enabled internal tools and customer-facing platforms spanning personalization, experimentation, content operations, and multilingual experiences across digital surfaces serving 30M+ monthly users.
- Translate ambiguous user, operational, and technical needs into product direction, value definitions, success metrics, acceptance criteria, dependencies, and phased delivery plans with Engineering, Data Science, UX, Analytics, Marketing, Legal, Privacy, QA, and Operations.
- Conceived and led the 0-to-1 development of Atlas, a GenAI product generating psychographic content variations at scale; improved team productivity 17%, customer engagement 25%, and revenue 15% across prepaid and accessories experiences.
- Identified the opportunity, secured investment, and led end-to-end development of Fluently, an NLP-enabled translation-as-a-service platform supporting att.com/es-us. Aligned 30+ contributors on automation, quality controls, human review, and resilient delivery, reducing turnaround time 99%, cutting defects approximately 50%, and generating \$8M+ in annual OPEX savings.
- Modernized audience segmentation from manual rules to ML-driven psychographic models, increasing click-through rate 8%, engagement 12%, and reducing audience build time 25%.
- Partner with Engineering and Data Science on AI/ML product architecture, behavioral telemetry, audience decisioning, experimentation, model retraining, and evaluation capabilities that connect product and quality signals to roadmap decisions.
- Define and track shared adoption, engagement, conversion, productivity, cycle-time, quality, and experimentation KPIs; navigate cross-department tradeoffs while establishing responsible-AI, data-use, access-control, integration, and governance requirements in a regulated enterprise.

Product Manager, Digital Strategy | AT&T

Los Angeles, CA | 2020 - 2021

- Co-authored a five-year product roadmap for a digital wallet platform supporting hundreds of millions of annual transactions, aligning SVP, Finance, and Product leadership on phased investment, platform capabilities, and risk-aware rollout.
- Conducted TAM and opportunity modeling across 750M+ payment transactions, quantifying market and financial potential to guide strategic investment and prioritization.
- Led early-stage experimentation and data-driven pilots that balanced customer value, operational feasibility, architecture dependencies, and governance constraints.

Associate Director, Digital Innovation (Product) | Saatchi & Saatchi / Conill

Los Angeles, CA | 2019 - 2020

- Built and led cross-functional product and engineering teams of up to 10 contributors, delivering predictive systems and AI-enabled tools that reduced operational effort 60-70%.
- Owned client- and vendor-integrated data products using NLP, computer vision, and predictive analytics; partnered across technical and business stakeholders to accelerate insight generation and improve forecast accuracy.
- Productized data-driven innovation offerings for Fortune 500 clients, generating 30-45% year-over-year revenue growth.

Digital Innovation Manager (Product) | Saatchi & Saatchi / Conill

Los Angeles, CA | 2017 - 2019

- Drove product performance through analytics-led process redesign and agile restructuring, reducing costs approximately 50% and accelerating delivery across multiple initiatives.
- Managed and mentored a 10-member product and engineering team, increasing throughput, strengthening accountability, and developing junior product talent into senior contributors.

Earlier Experience | Saatchi & Saatchi / Conill

Los Angeles, CA | 2012 - 2017

SELECTED AI-NATIVE PRODUCT DEVELOPMENT

- Lead product strategy and hands-on delivery for TraceGuard AI, a 0-to-1, cloud-native, multi-tenant SaaS platform using AI document extraction and agentic workflows to support regulated food traceability and recall operations.
- Define product requirements, backlog priorities, AI evaluation needs, failure states, acceptance criteria, and phased releases across GitHub-based development, testing, staged environments, and production-readiness validation.
- Shape system-wide requirements for role-based access, tenant isolation, audit history, data governance, security, reliability, integrations, and human-in-the-loop workflows using GitHub, Vercel, Supabase, and AI-assisted development tools.

EDUCATION & EXECUTIVE DEVELOPMENT

- BBA, Marketing - University of Texas at El Paso
- Post-Graduate Program in Artificial Intelligence & Machine Learning - UT Austin McCombs School of Business, 2024
- Product Strategy - Northwestern Kellogg School of Management, 2021
- Artificial Intelligence: Implications for Business Strategy - MIT Sloan & MIT CSAIL, 2018
- UX Research & Strategy - UCLA Extension, 2013
